# PDF Files Navigation Laserpointer Clock

Settings

If you are viewing a downloaded file, there is a "Save file" item in the file dialog. Tap on it and enter the filename:

Only the currently view file can be saved, if you switch to a different file, you'll have to download it anew.

# Navigation

▲ロト ▲帰ト ▲ヨト ▲ヨト 三日 - の々ぐ

Overview PDF Files Navigation Laserpointer Clock Settings

**Sequential:** tap an the two navigation slide views to go back and forth in your presentation.

#### Random: tap or slide on the page selector bar

## Overview PDF Files Navigation Laserpointer

Settings

### With PDFPresenter, you no longer need a Laser pointer:

## touch on iPad screen

Red dots are displayed on the external video at all locations where you touch the current slide view.

So PDFPresenter has a multitouch laser pointer!

Laser pointer

red dot on external video

# The clock

▲ロト ▲帰ト ▲ヨト ▲ヨト 三日 - の々ぐ

#### PDFPresenter

Overview PDF Files Navigation Laserpointe Clock

Set the time your presentation will take

Start the clock at the beginning of your presentation

Pause the clock, e. g. when answering a complicated question

Reset the clock

Rotate: rotate a misoriented presentation Screen size: select video mode of external video Slideshow: enable slide shows and set default duration

Transitions: enabled transition and limit transition duration

# Settings

# Rotate a Presentation

- Usually the orientation is encoded in the PDF
- Sometimes the orientation is not OK
- **Fix:** Tap on the lcon with the text orientation you see in the default setting.

Orientation

# Overview PDF Files Navigation Laserpoint Clock

Orientation External video Slide shows Transitions

# PDFPresenter doesn't make much sense without an external video adapter available from Apple. The behavior of PDFPresenter depends on whether the adapter was connected before or PDFPresenter was launched:

External Video

# before : PDFPresenter uses external Video of the highest available resolution.

after : screen resolution selection is opened.

The secreen resolution selection can also be opened by tapping the screen dimension icon.

# Slide shows

▲ロト ▲帰ト ▲ヨト ▲ヨト 三日 - の々ぐ

Overview PDF Files Navigation Laserpoint Clock

Slide shows

- Slides with duration  $\Rightarrow$  slide show.
- Enable in Settings dialog

Must be enabled in the settings dialog:

Einstellungen	
Diaschau starten:	0
Zeit pro Folie:	aus S
•	
\t up a bl in down at	i gal Vortio

By setting a slide delay, you can run your presentation as a slideshow.

# Transitions
